Subject: Microsoft Settlement

To whom it may concern ...

I just want to voice my opposition to the
(current) proposed settlement in the
Microsoft Anti.trust case.

As the settlement stands, it will only
stop Microsoft from continuing to abuse
its power without doing anything to correct
or punish its past actions. Microsoft
has already benefited from their illegal
acts and this settlement does nothing
about that.

While I'm sure the Court wants to reach a
settlement quickly, that is no reason to
rush into a settlement that does not
adequately address the problems and fails
to provide a decent solution.

Thank you for your time.
